Lab Task 02: Multi-section About Page

Instruction:

- 1. Complete the task**
- 2. After completion, push the code in the GitHub repository.**

Scenario:

You are designing a colorful About Page for your personal site. Each section highlights a part of your life, separated visually by unique colors and spacing.

Steps:

1. Create a webpage named about.html.
2. Divide the page into three main sections:
 - About Me
 - Education
 - Hobbies
3. Use `<div>` tags for each section and apply unique IDs and class selectors.
4. Apply different background colors for each section.
5. Use internal CSS (inside `<style>` tag in `<head>`).
6. Use one inline style for a specific text element (e.g., `<p style="color: blue;">`).
7. Add a `<hr>` between each section with custom color, height, and width.
8. Adjust spacing using margin and padding.
